

Aspirus Divine Savior - Orthopedics

# Joint Journey

**9 out of 10** of our patients would “highly recommend” our Joint Replacement program to their friends and/or family.

**100%** of patients have free access to our state-of-the-art Aspirus La Vita Fitness Center for up to 8 weeks before surgery to improve strength and endurance resulting in improved recovery time post-surgery.

**24.5 hours** is the average number of hours the majority of our patients spend in the hospital for surgery.

**100%** of patients who benefit from a wide range of complementary services and personal items including private rooms, special recliners for joint patients, a comprehensive guidebook, compression stockings, and ice pack.

**Over 96%** is the percentage of patients who go directly home following discharge.

*\* Based on primary hip and knee replacement surgeries at Aspirus Divine Savior performed January 1, 2022 – December 31, 2022.*

The focus of the Joint Journey Program at Aspirus Divine Savior is excellence, because that is what our patients deserve.

Joseph Mueller, DO  
Orthopedic Surgery

Providing excellence throughout all phases of the journey gives our patients increased satisfaction, excellent surgical outcomes, peace of mind and increased quality of life.
