

Can I Still Drive?

A Difficult Decision for Individuals, their family members and their physicians

The First Step is Accurate Assessment... Available at Riverview Rehabilitation Center

Clinical Assessment:

Assesses visual, physical and cognitive skills.

The clinical assessment is conducted at Riverview Rehabilitation Center in Wisconsin Rapids by Riverview Occupational Therapists who are trained in assessing driving skills.

Cost for Clinical Assessment:

\$125 Cash

These services are not covered by insurance unless you are currently receiving therapy services at Riverview Rehabilitation Center.

Behind the Wheel Assessment:

Assesses ability to drive safely.

The behind the wheel assessment is conducted by Dave's Driving School.

Cost for Behind the Wheel Assessment:

\$75 Cash

All information and recommendations from the clinical and behind the wheel assessments will be sent to the patient's physician to help the physician, patient and family make a more informed decision about driving.
