

ADVANCE CARE PLANNING KIT WISCONSIN

WHO WOULD MAKE MEDICAL DECISIONS FOR YOU IF YOU WERE UNABLE TO MAKE THEM FOR YOURSELF?

DID YOU KNOW.....

<u>Wisconsin and Michigan are not next-of-kin states?</u> This means family members are not automatically authorized to make health care decisions for you unless you have completed an Advance Directive (Power of Attorney for Health Care) naming them as the agent.

DID YOU KNOW.....

If you don't have an Advance Directive (Power of Attorney for Health Care) and you're not able to make health care decisions for yourself the court would likely have to get involved? This would cost your estate thousands of dollars.

Did you know......Aspirus offers Free assistance:

- By Phone 715-843-1340 or 844-624-4793
- In Person call 715-847-2380 or 1-800-847-4707 to schedule an appointment

Once your Advance Care Plan is completed:

Give:

- Copies to your Health Care Agents (those you named on your form).
- Copies to those you see for your health care needs including clinics and hospitals.

Talk often:

- To those you named as health care agents.
- To those you see for your health care needs.
- To others that are close to you.

Keep: Your original in a place that is easily accessible and easy to find.

Review:

- Every decade or sooner.
- If there is a decline in your health or your agents' health.
- If there is a death (does that impact what is on your document)
- If you receive a new diagnosis or an illness has progressed.
- If you get divorced or a domestic partnership end and they are named as healthcare agents. Your document would no longer be valid, you would need to complete a new one.

Advance Directive including Power of Attorney for Health Care

Overview

This legal document meets the requirements for Wisconsin, Minnesota and Iowa.* It lets you

- Name another person to make your health care decisions if you cannot make them for yourself.
- Write down your goals and preferences for future medical care in specific situations.

The person you name is called your health care agent. You can also name alternate health care agents who can make decisions if the person you named first or second cannot or is not willing to make those decisions. This document gives your agent authority to make health care decisions on your behalf only after doctors and/or health care professionals authorized under current state law have determined you are incapable of making health care decisions for yourself.

This document **does not** give your agent authority to:

- Make financial or other business decisions.
- Make certain decisions about your mental health treatment.

Read this advance directive carefully before you complete and sign it. You should discuss your goals, values, and this advance directive with your health care agent(s). Unless you talk with your health care agent(s), they may not know your goals and be able to follow your instructions.

Recommendation: make an appointment with an advance care planning facilitator for help. If this advance directive does not meet your needs, ask your health organization or attorney about other options.

• Cut out the card below, fill it in, fold it and put it in your wallet.

Notice to Person Making this Document

You have the right to make decisions about your health care. No health care may be given to you over your objection, and necessary health care may not be stopped or withheld if you object.

Because your health care providers in some cases may not have had the opportunity to establish a long-term relationship with you, they are often unfamiliar with your beliefs and values and the details of your family relationships. This poses a problem if you become physically or mentally unable to make decisions about your health care.

In order to avoid this problem, you may sign this legal document to specify the person whom you want to make health care decisions for you if you are unable to make those decisions personally. That person is known as your health care agent. You should take some time to discuss your thoughts and beliefs about medical treatment with the person or persons whom you have specified. You may state in this document any types of health care that you do or do not desire, and you may limit the authority of your health care agent. If your health care agent is unaware of your desires with respect to a particular health care decision, he or she is required to determine what would be in your best interests in making the decision.

This is an important legal document. It gives your agent broad powers to make health care decisions for you. It revokes any prior power of attorney for health care that you may have made. If you wish to change your power of attorney for health care, you may revoke this document at any time by destroying it, by directing another person to destroy it in your presence, by signing a written and dated statement or by stating that it is revoked in the presence of two witnesses. If you revoke, you should notify your agent, your health care providers, and any other person to whom you have given a copy. If your agent is your spouse or domestic partner and your marriage is annulled or you are divorced or the domestic partnership is terminated after signing this document, the document is invalid.

You may also use this document to make or refuse to make an anatomical gift upon your death. If you use this document to make or refuse to make an anatomical gift, this document revokes any prior record of gift that you may have made. You may revoke or change any anatomical gift that you make by this document by crossing out the anatomical gifts provision in this document.

Do not sign this document unless you clearly understand it. It is suggested that you keep the original of this document on file with your doctor.

Part 1: My health care agent

The person I choose as my health care agent is:

If you can no longer make your own health care decisions, this advance directive names the person you authorize to make these choices for you. This person will be your health care agent. State law says your health care agent will make your health care choices for you only after doctors and/or other health care professionals authorized under current state lawhave determined you are incapable of making health care decisions. Your agent will make decisions about your medical care as you would if you were able. You and your health care agent(s) should have ongoing talks about your health and health care choices.

Choose someone who knows you well. It should be someone you trust and who respects your goals and values. This person should be able to make difficult decisions under stress. Often family members are good choices, but not always. Choose someone who will closely follow what you want and will be a good advocate for you. Discuss this document and your views with the person(s) you choose to be your health care agent(s).

A health care agent must be at least 18 years old. Your health care agent may not be one of your health care providers or an employee of your health care provider, unless he or she is a relative.

Name ______ Relationship ______ Telephone (Cell) (Work) (Home) City ______ State/ZIP _____ If that person is unable or unwilling to make decisions for me, then my next choice is: **Second choice:** _____ Relationship _____ Telephone (Cell) (Work) (Home) City _____ State/ZIP ____ If that person is unable or unwilling to make decisions for me, then my next choice is: Third choice: ______Relationship _____ Telephone (Cell)______(Work)______(Home)_____ Address City __ State/ZIP I do not have a health care agent. Instead, I want Part 3 of this document to

guide my health care.

Part 2: General authority of the health care agent

To complete this part:

Draw a line through anything in the box below you do **not** want your health care agent to do. For example, it should look like this: Decide on

I want my health care agent to be able to:

- Decide on tests, medicine, surgery and other medical care. If treatment has started, my agent can keep it going or stop it, based on my instructions or my best interests.
- Interpret my instructions based on what he or she knows of my preferences and values.
- Review and release my medical records and personal files as needed for my medical care.
- Arrange for my medical care and treatment in Wisconsin or any other state.
- Decide whether organs or tissues (anatomical gifts) can be donated after my death according to my preferences and values.

Limits on mental health treatment in Wisconsin

Wisconsin law says my health care agent may not admit or commit me to an inpatient facility for mental health treatment. This means that in Wisconsin, my agent cannot admit me to:

- an institution for mental diseases
- an intermediate care facility for people with an intellectual disability, or
- a state treatment facility for mental health.

My health care agent may not agree to any drastic mental health treatments for me. These treatments include experimental mental health research, brain surgery, or electroshock therapy.

To complete the next three questions:

Initial or check the box beside the one statement in each section you agree with.

for me while I am pregnant without a court order.

In Wisconsin, if you do not mark any box in a section, or you choose "no," only a court can make the decision and not your health care agent.

1. Agent authority to make the decision to admit me to a nursing home or community-based residential facility for long-term care.

Note: Your health care agent has the authority to admit you to a nursing home or care facility (community-based residential facility) for a **short-term** stay. For example, you might need care to recover after surgery and you expect to go home.

If I need lo	ng-term care for any reason, then:
	s, my agent can make the decision to admit me to a nursing home or community-based idential facility for a long-term stay.
	, my agent cannot make the decision to admit me to a nursing home or community-based idential facility for a long-term stay.
	Wisconsin, choosing "no" or leaving this section blank means I cannot be admitted to a Wisconsin g-term care facility without a court order.
_	authority to make the decision to refuse or have removed a feeding tube r IV fluids.
Ye	es, my agent can make the decision to refuse or stop tube feedings and/or IV fluids.
No	o, my agent cannot make the decision to refuse or stop tube feedings and/or IV fluids.
	Wisconsin, choosing "no" or leaving this section blank means feeding tubes and IV fluids cannot be used or stopped without a court order.
3. Agent	authority to make health care decisions during pregnancy.
Ye	es, my agent can make health care decisions for me if I am pregnant.
No No	, my agent cannot make health care decisions if I am pregnant.
Th	is does not apply to me.
In V	Wisconsin, choosing "no" or leaving this section blank means health care decisions cannot be made

documents you need.

Part 3: Statement of desires, care instructions or limits

Part 3 allows you to make your preferences clear. Your health care agent and your doctors will refer to this section as they care for you. If you did not name a health care agent or if your health care agent cannot be reached, you can direct your care with the choices you make below. You should talk with your health care agent about the kind of care you want, even if you don't make choices in this section.

about the kind of care you want, even if you don't make choices in this section.				
You are not required to complete this part of the document.				
To complete this part:				
Initial or check the box beside the one statement you agree with. You may add other specific care instructions on page 7.				
1. Treatments that may prolong life if I am in this situation.				
If I am sick or injured and my doctors believe there is little chance I will recover the ability to know who I am, who my family and friends are, or where I am, this is my choice:				
I want to refuse or stop all treatments. Some examples are a machine that breathes for me (respirator/ventilator), feeding tubes, blood products, antibiotics, or fluids given to me through an IV, treatments for chronic medical conditions, or other medications.				
I want to receive all treatments to keep me alive, unless my doctor determines the treatments would harm me more than help me.				
With either choice, I understand I will be kept clean and comfortable. I will continue to receive pain and comfort medicines, and food and fluids by mouth if I can swallow safely.				
2. Cardiopulmonary resuscitation (CPR).				
Based on my current health, this is my choice about CPR if my heart or breathing stops.				
I want CPR attempted <i>unless</i> my doctor determines:				
 I have a medical condition and no reasonable chance of survival with CPR, OR CPR would harm me more than help me. 				
I do not want CPR. Let me die a natural death.				

If you do not want emergency personnel to give you CPR, you will need to talk to your doctor about other

6 of 9

Specific care instructions to meet my goals and preferences in certain situations:
Comfort preferences: These things are important to me for comfort (for example, favorite music, warm
blankets, best positioning in bed).
Including others when making decisions about my care: (If there is time, try to include these
people in my care decisions.)
If I are many death and connect communicate. I want to give my friends and family these
If I am near death and cannot communicate, I want to give my friends and family these
personal messages:

If I am near death, things I would want: (For example, favorite music, rituals, dim lighting, a visit from the hospital chaplain or someone from my faith community.)
To complete this part:
Initial or check the box beside the statement you agree with.
After my death, these are some of my preferences:
1. Donation of my organs or tissue (anatomical gifts)
Examples of organs are kidney, liver, heart, and lungs. Examples of tissue are eyes, skin, bones, and heart valves.
A. I do not wish to donate any part of my body.
B. After I die, I wish to donate any parts of my body that may help others.*
C. After I die, I wish to donate only these organs and tissue:*
*If you checked B or C, register in your state at www.DonateLife.net to make your preferences legal.
2. Autopsy preference
Initial or check one box OR both B and C.
A. I do not wish to have an autopsy.
B. I would accept an autopsy if it can help my relatives and/or loved ones understand the cause of my death or if the findings may help them make their own health care choices.
C. I would accept an autopsy if it can help advance medical knowledge or medical education.

Part 4: Making the document legal

In Wisconsin: This document must be signed and dated in the presence of two witnesses who meet the qualifications explained below. A notary public cannot be used instead of the two witnesses.

My signature and date		
I am of sound mind. I agree with everything written in this document. I have completed this document of my free will.		
My signature Date		
If I cannot sign my name, I ask (print name)me.	to sign for	All three dates mus match
Signature of the person I asked to sign for me		
 Statement of witnesses A. By signing this document as a witness, I certify I am: At least 18 years old. Not related by blood, marriage, domestic partnership, or adoption to the person signing. Not a health care agent appointed by the person signing this document. Not directly financially responsible for this person's health care. Not a health care provider directly serving the person at this time. Not an employee of a health care provider directly serving the person at this time. In Wisconsin, social workers and chaplains may serve as witnesses even if employed care provider. Not aware that I am entitled to or have a claim against the person's estate. 		
B. I know this to be the person identified in the document. I believe this person to be of soun least 18 years old. I personally witnessed this person sign this document, and I believe that so voluntarily.		I

DONATING YOUR BODY TO MEDICAL SCIENCE:

If you wish to donate your body after death to medical science, you should contact the closest medical school in your state and make arrangements through that medical school. Two in Wisconsin include:

University of Wisconsin-Madison Medical School: 608.262.2888

Medical College of Wisconsin - Milwaukee: 414.456.8296

DEFINITION OF TERMS:

Advance Care Planning:

- Planning ahead for future health care decisions
- If a sudden, unexpected event occurs (like a car accident or sudden illness)
- · You are suddenly unable to communicate and make you own health care decisions
- Others would need to make decisions for you

Advance Directive:

 A document in which a person states goals, values and beliefs about health care treatment decisions, including who should make those decisions, in the event that person can no longer make decisions for him/herself.

Health Care Agent:

• The person chosen by the patient to make health care decisions in the event the patient cannot make decisions for him/herself. A health care agent is named in the Power of Attorney for Health Care. Other equivalent terms include health care proxy, substitute decision maker, or surrogate decision maker, but health care agent is preferred.

Living Will:

• Written instruct ions that tell physicians and family members what life-sustaining treatment a person does, or does not want, if one becomes unable to make decisions at some point in the future.

Legal Guardian:

 A person appointed by a judge to make personal decisions for another person (called a ward) including consent to, or refusal of medical treatment.

Incapacity:

• The inability to receive and evaluate information effectively, or to communicate decisions to such an extent that the individual lacks the capacity to manage his or her health care decisions.

Cardiopulmonary Resuscitation (CPR):

• Life-saving procedures that include compression over the breast bone to maintain blood flow, electric shock to restart the heart, placing a breathing tube in the windpipe, so oxygen can be sent to the lungs. It also involves medicines to restore blood pressure.

Do Not Resuscitate:

Physician orders written so that CPR will not be used if a person's heart or breathing stops. DNR does not mean "no care." Emergency personnel will make every effort to provide comfort measures, which may include: oxygen, pain medication, clearing the airway and providing emotional support to the patient and family.

Feeding Tube:

• A tube through which fluids or nutrition is administered through the vein, stomach, nose or mouth.

Respirator / Ventilator:

A medical machine used to assist with breathing when a person cannot breathe independently.

Antibiotics:

Medications used to treat infections.

Autopsy:

A medical examination done after death in order to confirm or determine the cause of death.
