

## **ADDENDUM 4:**

### **Amount Generally Billed Percentages**

No patient determined to be eligible for financial assistance under Aspirus' financial assistance policies will be charged more for emergency or medically necessary care provided than the amounts generally billed (AGB) to individuals with insurance covering such care. Aspirus hospitals use the look-back method for determining Amount Generally Billed (AGB) percentages and are adjusted at least annually.

Below are the AGB percentages using allowed Medicare, Medicaid, and private health insurer claims for service dates April 1, 2024 to March 31, 2025. \*Exception for Aspirus St. Luke's Hospital and Aspirus Lake View Hospital claims are for service dates of January 1, 2024 to December 31, 2024.

Independent practices noted in Addendum 5 have the option of adopting the Aspirus sliding scale or charging no more than the Medicare physician fee schedule. The option they chose for participating is noted in the addendum.

#### HOSPITAL AGB Percentage

Aspirus Ironwood Hospital 33%

Aspirus Keweenaw Hospital 36%
