

ADDENDUM 4:

Amount Generally Billed Percentages

No patient determined to be eligible for financial assistance under Aspirus' financial assistance policies will be charged more for emergency or medically necessary care provided than the amounts generally billed (AGB) to individuals with insurance covering such care. Aspirus hospitals use the look-back method for determining Amount Generally Billed (AGB) percentages and are adjusted at least annually.

Below are the AGB percentages using allowed Medicare, Medicaid, and private health insurer claims for service dates April 1, 2025 to March 31, 2026.

Independent practices noted in Addendum 5 have the option of adopting the Aspirus sliding scale or charging no more than the Medicare physician fee schedule. The option they chose for participating is noted in the addendum.

HOSPITAL AGB Percentage

Aspirus Ironwood Hospital 30%

Aspirus Keweenaw Hospital 34%

Aspirus Lake View Hospital 60%

Aspirus Langlade Hospital 40%

Aspirus Medford Hospital 45%
