**Aspirus Riverview (Wisconsin Rapids, WI)** - 42 minutes  
**Aspirus Keweenaw (Laurium, MI)** - 44 minutes

If the helicopter must land at an airport and drive to the hospital, you will need to add approximately 10 minutes. If the helicopter is **NOT** on standby, you will need to add 10 minutes to the time listed as it takes that long to check weather and get the crew/pilot into the helicopter and taking off.
