- Woodruff** - Howard Young Hospital - 29 minutes

## Landing locations for Michigan Communities

- Houghton** - Houghton Airport
- Ironwood** - Grandview Hospital
- Ontonagon** - Aspirus Ontonagon Hospital

If the helicopter must land at an airport and drive to the hospital, you will need to add approximately 10 minutes. If the helicopter is NOT on standby, you need to add 10 minutes to the time listed because it takes that long to check weather and get the crew/pilot into the helicopter and taking off.
