**AMOUNT GENERALLY BILLED CALCULATION  
AUGUST 1, 2021**

**North Hospitals acquired by Aspirus 8/1/21:** Eagle River Hospital, Good Samaritan Hospital, Howard Young Medical Center, Our Lady of Victory Hospital, Sacred Heart Hospital, St. Mary's Hospital, St. Michael's Hospital and related Medical Group providers calculate one AGB percentage using the "look-back" method and including Medicare fee-for-service and all private health insurers that pay claims to the Organization, all in accordance with IRS Reg. Sec. 1.501(r)-5(b)(3), 1.501(r)-5(b)(3)(ii)(B) and 1.501(r)-5(b)(3)(iii). The details of that calculation and AGB percentage is described below.

The AGB percentages calculated for the North Hospitals acquired by Aspirus on 8/1/21 are as follows:

1. Eagle River Hospital – 50.9%
2. Good Samaritan Hospital – 58.7%
3. Howard Young Medical Center – 45.7%
4. Our Lady of Victory Hospital – 59.6%
5. St. Mary's Hospital – 38.8%
6. Sacred Heart Hospital – 57%
7. St. Michael's Hospital – 50.3%
8. Medical Group – 40.8%

This AGB percentage is calculated by dividing the sum of the amounts of all the hospital facility's claims for emergency and other medically necessary care that have been allowed by Medicare fee-for-service and all private health insurers that pay claims to the hospital facility by the sum of the associated gross charges for those claims. The only claims that are utilized for purposes of determining the AGB are those that were allowed by a health insurer during the 12-month period prior to the AGB calculation (rather than those claims that relate to care provided during the prior 12 months).

Notwithstanding the foregoing AGB calculation, North Hospitals acquired by Aspirus as of 8/1/21 have chosen to apply a lower AGB percentage as follows:

North Hospitals acquired by Aspirus as of 8/1/21 and medical groups
