Facilities (CARF), accredited since 1993
and accredited by the Joint Commission

Our Mission

We provide a safe, positive environment where individuals who have been disabled by illness or injury can enable themselves to reach their potential, accept responsibility for their lives, and live a lifestyle acceptable to them.

★ Aspirus Hospitals

We Are Dedicated to Excellence

Persist...Achieve...Inspire

Serving Our Patients

A firm commitment is made to involve our patients and family in their plan of care. Clear goals are established to challenge and motivate patients to assist them in improving their level of independence.

- **Average Age** = 65.1
- **Gender** = Male 64.5% Female 35.8%
- **Average Therapy Hours** = 17.56 hours/7 days (Required is 15 hours/7 days)
- **Average length of stay for all diagnoses** = 12.3 days compared to region at 12.2 and nation 12.8.

Patient Improvement Scores

Our patients have a markedly higher improvement in functional status within a shorter length of stay than the benchmark scores for both the region and the nation. In the tables below, higher scores indicate better performance.

Patient Diagnosis Groups

Percentage of Patients Discharged to Community (Home or CBRF)

Aspirus Wausau Hospital Inpatient Rehabilitation	Regional Benchmark	National Benchmark
91.7%	82.7%	83.8%

Source: USD^{MR} Adjusted Benchmark Comparison, 2018 Annual Report

Percentage of Patients Discharged to Acute Hospitals

Planned or Unplanned (Lower is better)

Aspirus Wausau Hospital Inpatient Rehabilitation	Regional Benchmark	National Benchmark
5.8%	9.0%	8.7%

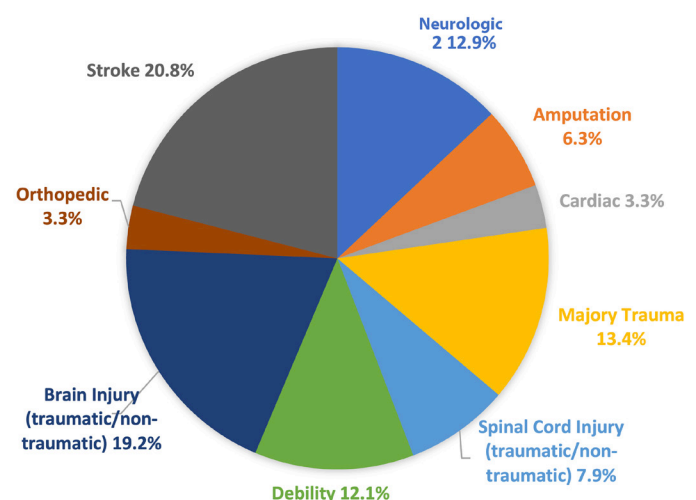

Inpatient Rehab excels at managing patient complications during their rehabilitation stay.

Source: USD^{MR} Adjusted Benchmark Comparison, 2022 Annual Report

A vital part of recovery for patients is the ability to be discharged directly to the comfort of their own home or the familiar surroundings of their Community Based Residential Facility (CBRF). Aspirus Wausau Hospital Inpatient Rehabilitation excels in getting patients functioning to a level where they can be reintegrated into the community.

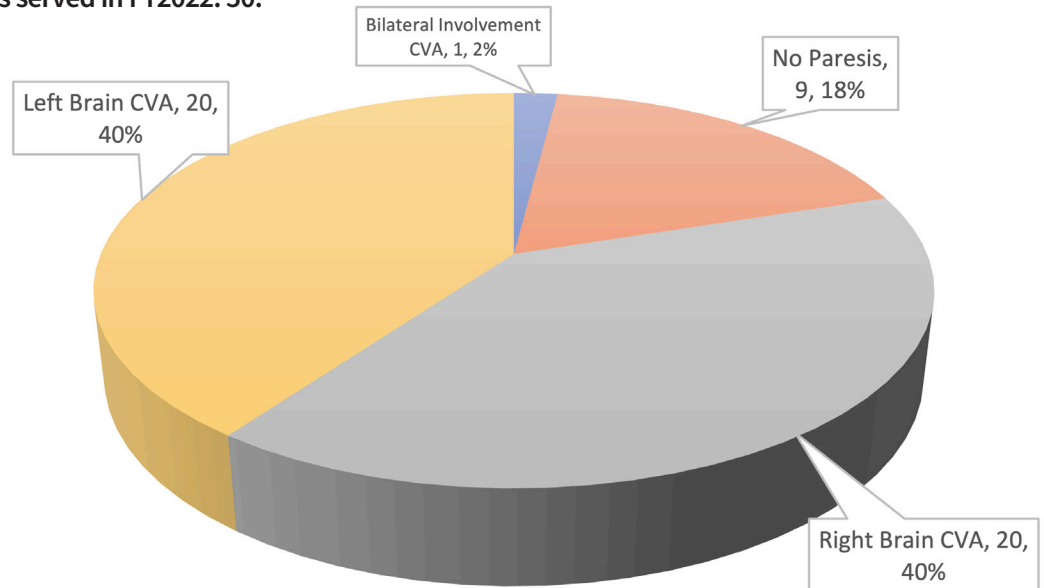

Who Do We Serve?

FY22 Aspirus Wausau Hospital Inpatient Rehabilitation Patients by Impairment Group

Types Of Strokes

Total number of stroke patients served in FY2022: 50.

Patient Outcomes

Reporting Period 07/01/2021-06/30/2022

Data Source: UDS (Uniform Data Systems).

OUTCOMES	ASPIRUS	REGION	NATION
AVERAGE STAY (DAYS)	14.0	13.9	14.0
AVERAGE AGE	66.1	68.2	68.1
DISCHARGE TO COMMUNITY	84%	80.2%	82.5%
DISCHARGE TO SKILLED NURSING FACILITY	8%	11.8%	9.7%
DISCHARGE BACK TO ACUTE HOSPITAL	8%	7.6%	7.4%
DISCHARGE SELF-CARE SCORE	36.0	34.7	35.0
DISCHARGE MOBILITY SCORE	71.8	68.7	68.0
FUNCTIONAL EFFICIENCY	80.0	64.0	65.0

Many factors influence your length of stay, including severity of injury, previous health status and medical complications.
