Collagen

SKINPEN® MICRONEEDLING

SkinPen Microneedling is the first FDA-cleared microneedling device that creates micro-channels in your skin that stimulate tissue remodeling and collagen production for improvement in fine lines/ wrinkles, skin laxity and overall skin rejuvenation. Best of all, SkinPen doesn't rely on heat or chemicals, so the results are natural and safe for all skin tones and types. **\$350; Package of 3-\$795**

SKINPEN® WITH PLATELET-RICH PLASMA (PRP)

All the benefits of SkinPen now with a boost of PRP. A blood sample will be obtained, then spun down in a centrifuge to separate the plasma in the blood. This plasma is then applied to the treatment area during microneedling. By using the PRP in combination with the microneedling, it provides deep penetration of growth factors and PRP products into the skin that stimulates your body's healing process which decreases downtime from the procedure and improves your results. **\$650-\$950; Package of 3-\$1595-\$2300**

SCULPTRA

Sculptra is a bio-stimulating treatment. Sculptra works by addressing the underlying cause of aging skin from loss of collagen. Once injected, Sculptra stimulates the natural growth of new collagen. This leads to restoration of facial volume over time and a dramatic improvement of the skin texture. Results are natural and become noticeable after 2-4 sessions (based on individual concerns). The effects of Sculptra can last up to 25 months. **\$800 per vial. \$800-\$3500**
