

The Aspirus Wausau Hospital Inpatient Rehabilitation Difference

How do we consistently score above other rehabilitation facilities in patient care quality?

Aspirus Wausau Hospital Inpatient Rehabilitation difference combines:

- A firm commitment to involving the patient and family in the plan of care.
- Setting clear goals that challenge and motivate patients to achieve an improved level of independence.
- A Rehab Team that meets daily to coordinate care, to evaluate progress towards goals, and to identify any barriers to reaching those goals.

"Therapy challenged me...pushing me to achieve my goal of walking and to be able to return home. I truly am indebted to all the rehab staff in my recovery."

Inpatient Rehabilitation
finding a faster way home**

Our Mission - We provide a safe, positive environment where individuals who have been disabled by illness or injury can enable themselves to reach their potential, accept responsibility for their lives, and live a lifestyle acceptable to them.

Benchmark Leader

In a 2020 Uniform Data System for Medical Rehabilitation (UDSMR) report*, Inpatient Rehabilitation at Aspirus Wausau Hospital was a bench-mark leader in quality outcome scores for patient functional improvement and discharge to home. Aspirus Wausau Hospital Inpatient Rehab functional mobility status at the time of discharge are consistently higher than national outcomes. (70.8 vs. 67.)

**Uniform Data System for Medical Rehabilitation, a division of UB Foundation Activities, Inc., University at Buffalo, The State University of New York, analyzes and reports yearly data comparing patient outcomes of inpatient and free-standing rehab facilities.*

Higher and faster rate of improvement

We help patients become more functional in their daily living activities, and we get them **home an average of three days sooner** than the national average.

More patients discharged to home

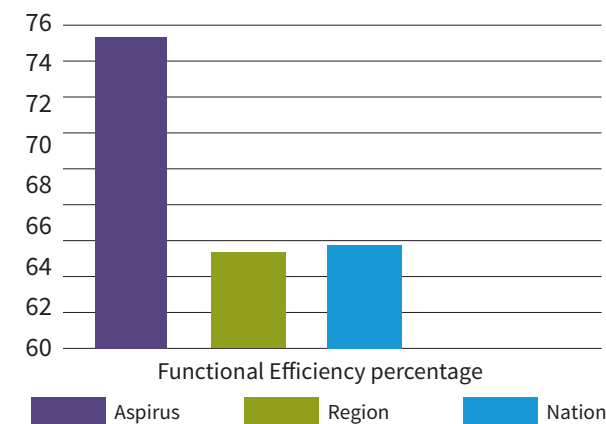

A vital part of recovery for patients is the ability to be discharged directly to the comfort of their own home or the familiar surroundings of their Community Based Residential Facility (CBRF). Aspirus Wausau Hospital Inpatient Rehabilitation excels in getting patients functioning to a level where they can be reintegrated into the community.
